RE: Letter of recommendation for "Thomas Clarke Construction"

TCC has completed many projects for me over the past three years. TCC's first project was my personal residence on Lake Oswego which included a full scale remodel, and complete landscaping of our grounds. TCC has also been involved in many commercial projects on buildings that we own, in and around the Portland metro area. TCC has performed at the highest level of quality and overall service. Currently TCC is renovating the entries of two of our office buildings in the Hillsboro area.

We would certainly highly recommend them for future projects.
